

# **BITLESS BRIDLE IN COMPETITION**

<http://www.usef.org/documents/rules/ruleChanges/PRC/PRCbrochure.pdf>

DearAll,

After a brief review, I think it is too late to send in rule change proposals for 2004 concerning the bitless bridle. But if everyone sends a letter to USEF, I think it will make an impact. Please feel free to forward this to anyone who rides in a bitless bridle.

## **Here are the rules for rule changes:**

This is the form that indicates that it is too late to get a formal change in, but we could get on the ball for next year and send the rule change in with the dates changed to 2005:
